## Six Super Strategies

### Question

Ask questions that you wonder about as you read, listen, or observe.

"Who" "Did What" "Where"  
"When" "Why" I wonder if.....  
"What is happening?"

### Visualize

Picture in your mind what you are learning. What actions and objects do you see? (Or draw a picture, act it out)

"I see....." "I picture"

### Connect

As you learn, ask yourself what this reminds you of? Think about your past experiences or knowledge.

"This reminds me of....."

### Infer

What do you think you know even though you were not told? What reasons do you have for your idea?

"I think.....because....."  
"I infer that.....because....."

### Predict

Periodically stop and think about what might happen next. Tell what clues make you predict that.

"I predict that.....because....."  
"My hypothesis is..."

### Conclude

What is the big idea? What is it all about? What conclusion can you make?

"I conclude that....."
